

Caregiver Care Binder

Keep key care details in one place.

Prepared for (first name or initials): _____

Kept by: _____

Phone: _____

Binder started (date): _____

Last reviewed (date): _____

If found, please return to: _____

Please do not read further. This binder contains private information.

An information organizer only. Not medical, legal or financial advice. Consult licensed professionals. In an emergency, call local emergency services.

How to Use This Binder

This binder helps you keep care details organized and easy to share. Fill in what applies, and skip what doesn't.

Start here

1. Fill in Section 1 (Care Snapshot) and Section 2 (Contacts) first. These are the pages others need most.
2. Copy medication details exactly from pharmacy labels or prescriber instructions into Section 3. This list is a record only. It does not replace the label or your pharmacist's or prescriber's instructions.
3. Bring the binder to appointments, and use the Visit Notes pages in Section 4.
4. Use the Daily Care Log (Section 5) to note what you see, in your own words. You can share it with the care team if it helps.
5. In Section 6, record where important documents are kept. Do not write account numbers, passwords or document contents in this binder.
6. Before handing over care, fill in the Hand-Off Sheet (Section 7).
7. Use Section 8 to share tasks with family. Use Section 9 to check in on yourself.

Good habits

- Use pencil for anything that changes often.
- Date every entry.
- Review the binder once a month, and log it on page 35.
- Keep the binder somewhere safe but easy to find. Tell one other person where it is. See the privacy note below.

Important: please read

This binder is an information organizer only. It does not provide medical, legal or financial advice, and it does not replace the instructions of a doctor, nurse, pharmacist, attorney or financial professional. Always follow the guidance of the licensed professionals involved in the person's care, and ask them if you are unsure about anything you record here. The seller has not reviewed or verified any information you enter. In an emergency, call your local emergency services immediately.

Keep this binder private

Once filled in, this binder holds sensitive personal and health information. Store printed copies somewhere secure, such as a locked drawer or a place only trusted people can reach. If you save or fill in the PDF digitally, keep it on a password-protected device or account, and be careful when emailing or sharing it. Share it only with people involved in the person's care. Shred old pages you no longer need. Do not write account numbers, passwords or ID numbers in this binder.

Questions to Ask: Prompt Bank

Prompts to help you get clear information. Choose the ones that fit, and copy them onto your Visit Notes page.

About the visit

- What is the main thing we should know from today?
- Could you write that down or print it for us?
- Who should we contact with questions after today?
- What is the best way to reach you or your office?

About medications

- What is this medication for?
- How and when should it be taken, exactly?
- Is there anything we should watch for and report to you?
- Does this change anything else on the current list?

About tests and referrals

- What is this test or referral for?
- How and when will we get the results?
- Is there anything to do to prepare?

About next steps

- When should we come back?
- What should we contact you about before then?
- Who do we call after hours?
- Are there services or resources you recommend we ask about?

About paperwork

- Are there forms we need to complete or bring next time?
- Can visit notes be shared through the patient portal?
